MODUS

A rarity index for art.

2026 MEDIA KIT

MODUS.GALLERY

An editorial authority for rare and collectible art.

MODUS evaluates art the way credit rating agencies evaluate debt — systematically, on named criteria, by named authorities. Every entry is scored against a formal Index rather than priced by reputation alone.

Reach collectors while they're evaluating, not scrolling past.

MODUS readers arrive with intent — checking a score, researching a piece, comparing a collection. That's a materially different audience than social reach alone.
